ADDITIONAL INFORMATION

Purpose. The Request for Transfer or Direct Rollover to a Roth Beneficiary IRA form is designed to assist you in the movement of assets from a Roth individual retirement account (IRA), or an eligible retirement plan to your Roth beneficiary IRA.

Additional Documents. A transfer can avoid income and penalty taxes but, to be successful, additional documentation may be required by the Current Roth IRA's Custodian/Trustee. Eligibility for a direct rollover will be determined by the employer or its plan administrator.

For a direct rollover to be successful, the employer's plan and/or your beneficiary IRA's custodian/trustee may require additional documentation.

For Additional Guidance. It is in your best interest to seek the guidance of your tax or legal professional before completing this document.

For a transfer, your first reference should be the Roth beneficiary IRA agreement and disclosure statement you received upon establishing your Roth beneficiary IRA and/or amendments provided by the custodian/trustee. For more information, refer to Internal Revenue Service (IRS) Publication 590, *Individual Retirement Arrangements (IRAs)*, instructions to your federal income tax return, your local IRS office, or the IRS's web site at www.irs.gov.

For a direct rollover, refer to the employer's plan document and the summary plan description provided. For more information, refer to IRS Publication 575, *Pension and Annuity Income*, your local IRS office, or the IRS's web site at www.irs.gov.

Terms. A general understanding of the following terms may be helpful in completing your transaction.

Direct Rollover. A direct rollover avoids federal income tax withholding and, though similar to an IRA-to-IRA transfer, is reported to the IRS. The employer or the plan administrator of the eligible retirement plan can inform you of your eligibility and rules to roll the retirement assets directly to your Roth beneficiary IRA.

Election of Payment. This is a document that describes the beneficiary's election or the payment method the beneficiary is required to follow for required minimum distribution calculations.

In Kind. If a Roth IRA or eligible retirement plan contains stocks, bonds, mutual fund shares, or other types of property, it may be possible to move such property to a Roth beneficiary IRA without liquidation. This type of "in kind" transaction would require that the property be reregistered in the name of the requesting IRA custodian/trustee for the benefit of your Roth beneficiary IRA. The requesting custodian's/trustee's policies, charters, or applicable law may prevent the transfer of property.

Required Minimum Distribution (RMD). Roth IRA beneficiaries must satisfy an annual RMD. The penalty for failing to take the annual RMD for any distribution year is a 50 percent excise tax on the amount not distributed. Although the rules may permit you to transfer your RMD, it must still be satisfied by December 31 of the distribution year.

Transfer. A transfer is the nonreportable movement of assets between IRAs of the same type.
